

BLUM METABOX & TANDEMBOX DRAWER SYSTEM

The BLUM METABOX & TANDEMBOX Systems are an entirely new concept for the functional and formal design of drawers, pull-out shelves and drawer organizers. The METABOX & TANDEMBOX Systems enables a manufacturer to combine the design aspect of the exterior with the interior of the cabinet. The METABOX & TANDEMBOX are a complete drawer system, the key element being a metal drawer side with an integrated slide mechanism, based on a single basic cabinet profile for all pull-out functions. This enables the manufacturer to fully automate cabinet production and only cut drawer bottoms, backs and fronts. The high quality BLUM METABOX & TANDEMBOX Systems offer rapid assembly, total system flexibility and contemporary design. 100 lbs. load capacity.

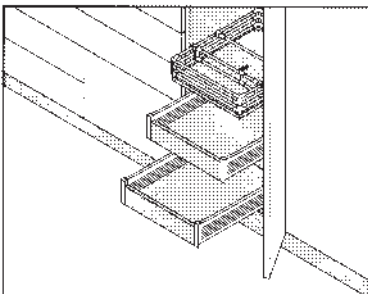

Drawer configurations

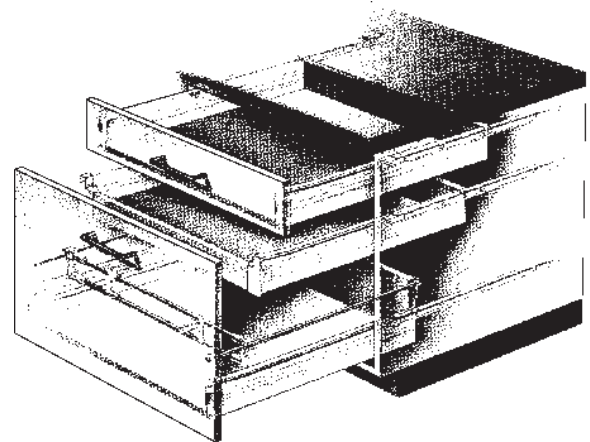

Standard drawer

Standard drawer with gallery organization

Gallery roll-out shelf (top)
Interior roll-out trays (bottom)

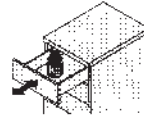

Testing standards at Blum

METABOX & TANDEMBOX complies with and exceeds the ANSI/BHMA 156.9-1994 standards, for a Grade 1 rating. Blum also performs other specific tests.

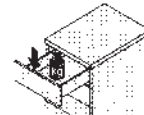

Dynamic wear test

100,000 open/close cycles with a total drawer weight of 34 kg (75 lbs)

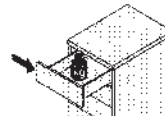

Static loading test

45.3 kg (100 lbs) applied to a half extended drawer for 1 minute

Side pressure test

A force of 15kg (6.8lbs) is applied ten times to a fully extended drawer

Global Benefits

Thank you for using Blum METABOX. We are sure you will find this a comprehensive drawer program that offers benefits for all users from the manufacturer to the consumer.

Julius Blum, Inc. is ISO 9001 certified which means you are assured of consistent quality in every Blum hardware product. As with all Blum hardware, METABOX is backed with a lifetime guarantee. Contact your Blum representative for full warranty details.

BLUMOTION

BLUMOTION - a unique system for smooth and silent closing. BLUMOTION engages when the drawer is closing and applies resistance to the self-closing mechanism. The result is a controlled soft close.

BLUM ORGA-LINE for TANDEMBOX

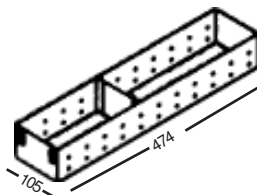

TANDEMBOX with ORGA-LINE means total access.

Blum ORGA-LINE brings beautiful form and function to the interior of TANDEMBOX drawers. At the core of ORGA-LINE are stainless steel cutlery trays that can be arranged in a multitude of ways. Easily removed for cleaning (dishwasher safe) or taking silverware to the table. The companion utensil dividers can stand alone in drawer or can be coupled to the cutlery trays. Adjustable spring loaded dividers lock into the stainless steel rails offer yet another custom fit.

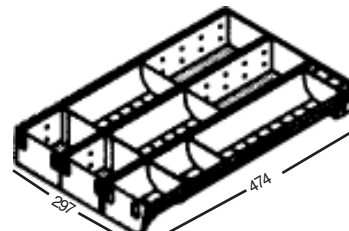

ORGA-LINE drawer dividing system - 500mm (20") drawer length.

BLUM ORGA-LINE for TANDEM DRAWERS

Blum ORGA-LINE for TANDEM drawers is a program of insert kits that fit into wood drawers that are built to the dimension standards of Blum's TANDEM concealed drawer runners. (see page SL-6 & SL-7) Dishwasher safe, stainless steel trays, adjustable partitions that custom tailor utensil divider kits, spring loaded side rails and compensation trays allow for a great fit and function in any situation.

ORGA-LINE Plate Holder.

A new idea for organizing the kitchen

The ORGA-LINE plate holder makes organizing stacks of plates quick and easy. Adjusts to fit most common dinner plates. Rubber feet hold the plate holder in place. Designed to make storing and accessing plates simple by placing them in a drawer instead of an overhead cupboard. The handles make carrying plates to the dinner table or patio a breeze.
